FLOOD MANAGEMENT
PLANNING PROGRAM**

Central Valley Flood Protection Plan

Presentation Outline

- California FloodSAFE
- Central Valley Flood Management Planning Program
- Central Valley Flood Protection Plan
 - Purpose and Scope
 - Planning and Engagement Process
- Regional Conditions Summary Report
 - Regional Conditions Work Groups
 - Topic Work Groups
- Next Steps

October 2009

FloodSAFE California

FloodSAFE Initiative

- Improve Emergency Response
- Improve Flood Management Systems
- Improve Operation & Maintenance
- Inform and Assist Public

FloodSAFE Goals

1. Reduce chance of flooding
2. Reduce consequences of flooding
3. Sustain economic growth
4. Protect and enhance ecosystems
5. Promote sustainability

October 2009

FloodSAFE Activities

Reduce chance of flooding		Reduce consequences of flooding
<ul style="list-style-type: none"> ● Emergency Repairs (multiple) ● Early Implementation Projects (multiple) ● Improve Operations and Maintenance ● Federal/State/Local Implementation Actions 	<ul style="list-style-type: none"> ● Statewide Flood Management Planning ● Central Valley Flood Management Planning Program ● Ecosystem Conservation Strategy ● Central Valley Local Assistance Program ● Levee Evaluation Programs ● Central Valley Floodplain Delineation and Evaluation Program ● Levee Flood Protection Zone ● Flood Hydrology Update 	<ul style="list-style-type: none"> ● Building Code Amendment ● Emergency Preparedness and Response ● Flood Risk Notification ● Federal/State/Local Implementation Actions
<div style="display: flex; justify-content: center; gap: 20px;"> <div> <p>● Programs/Actions within DWR's FloodSAFE Implementation Phase 1</p> </div> <div> <p>● Programs/Actions outside DWR's FloodSAFE Implementation Phase 1</p> </div> </div>

What is CVFMP?

Central Valley Flood Management Planning Program (CVFMP)

- Assess the current flood protection system
- Improve understanding of flood risk
- Develop Central Valley Flood Protection Plan (CVFPP) to improve integrated flood management in the Central Valley

2012 CVFPP

- **Promote understanding** related to integrated flood management from state, federal, local, regional, tribal and other perspectives (e.g., agriculture, urban, rural, environment, etc.)
- Create a **broadly supported vision** for improving integrated flood management in Central Valley
- Develop **new data and information** that can be shared for many purposes

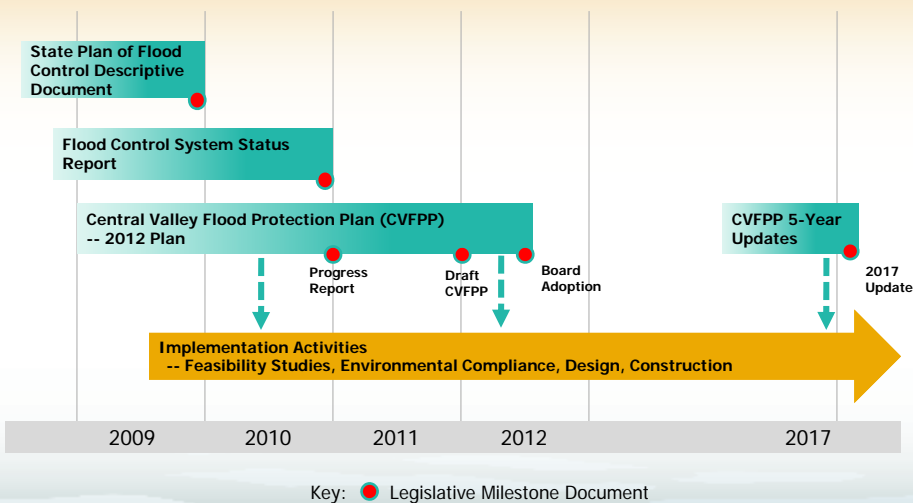

2012 CVFPP Scope

- Define flood and related resources problems
- Describe system, performance and risks
- Develop goals and objectives
- Identify management actions primarily for
 - Repairing and improving flood protection
 - Implementing integrated flood management
 - Improving system-wide riverine ecosystem functions
- Evaluate management actions
- Identify and evaluate potential system improvement

CVFMP Products & Schedule

October 2009

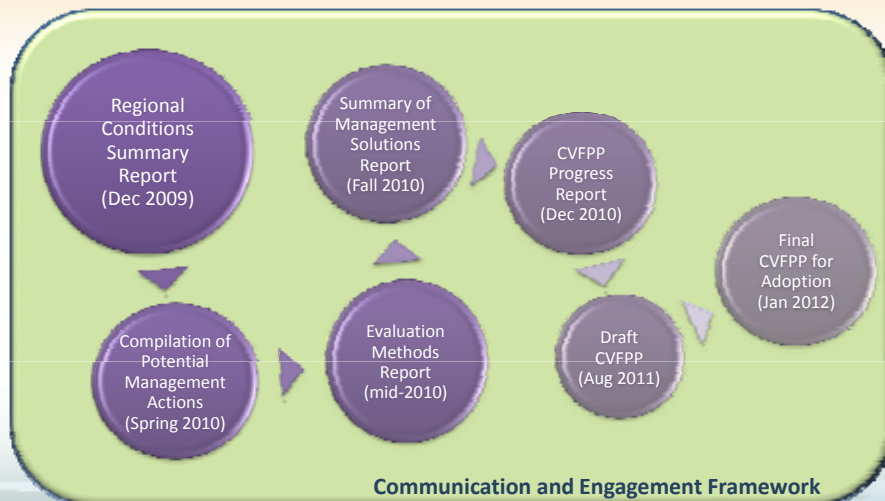

Development Approach

- Develop Central Valley Flood Protection Plan content using incremental and iterative process
 - Build broad agreement step by step
 - When final draft is ready, all interested parties will have had multiple opportunities to influence content
- Apply systematic, pre-determined planning steps to guide efforts
- Make use of existing reports
- Create content through chartered work groups open to outside participation

October 2009

2012 CVFPP Milestones

Communication and Engagement Framework

October 2009

Opportunities to Engage

- Forums

 - Regional
 - Valley-wide
- Work Groups

 - Regional (Place-based)
 - Topic (Subject-based)
- Document Review

 - Frequent
 - Occasional
- Interest-Based Groups

 - Existing Groups with Broad Representation
- Briefings and Coordination

 - Briefings
 - Project/Program Coordination
- Web Site and Info Sharing

 - www.water.ca.gov/cvfmfp

**Iterative
Development
of CVFPP Content
with Many
Opportunities
to Engage**

**CENTRAL VALLEY
FLOOD MANAGEMENT
PLANNING PROGRAM**

October 2009

Regional Conditions Summary Report

- Purpose: Define resource conditions for each region of the Central Valley
- Scope
 - Document current conditions and future challenges
 - Identify flood management and related problems
 - Identify ecosystem problems and opportunities
 - Define CVFPP goals and objectives
- Use
 - Identify management actions
 - Define what the CVFPP is to accomplish

**CENTRAL VALLEY
FLOOD MANAGEMENT
PLANNING PROGRAM**

October 2009

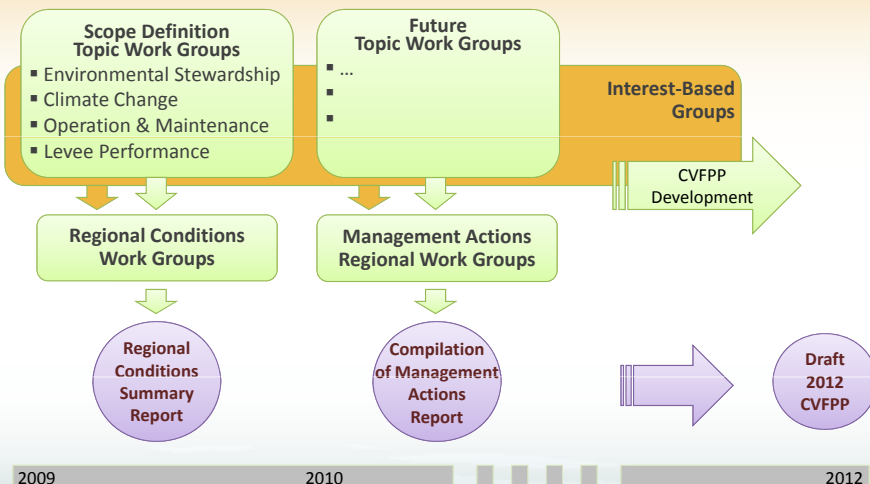

Regional Conditions Work Groups

- Chartered 5 groups to develop plan content
- Group size is 25
- Balanced participation
- Facilitated discussion
- All materials and summary posted on Web site for public review

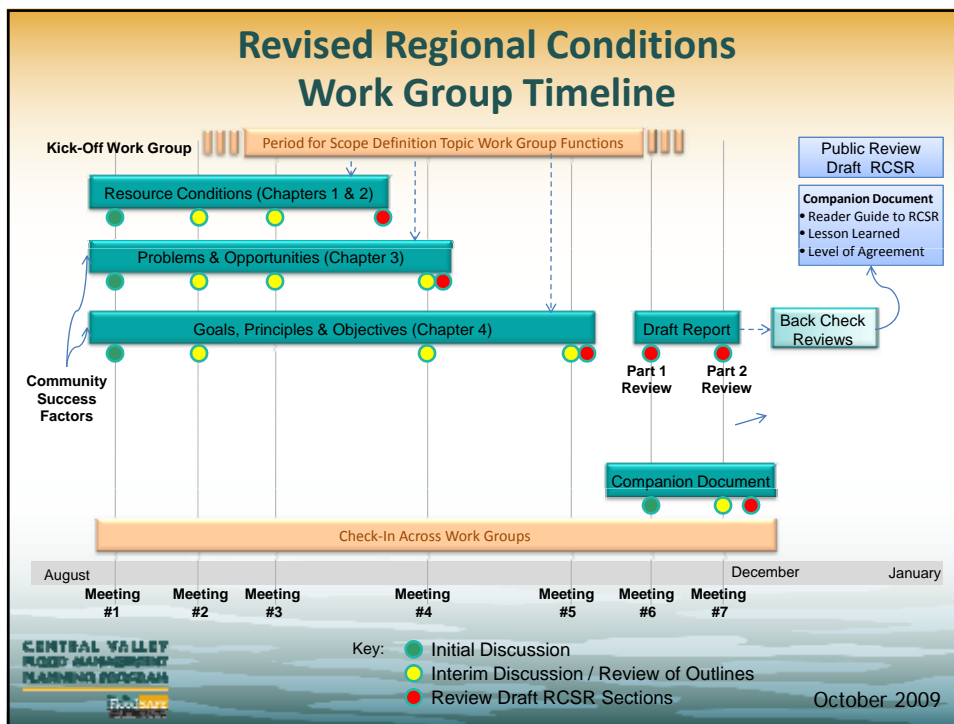

October 2009

Topic Work Groups

October 2009

Additional Engagement Opportunities

- Fall 2009
 - Briefings to local government councils and boards, and elected officials
 - Interest-based work group coordination
- Winter 2010
 - Valley-wide forum
 - Interest-based work group coordination
 - Additional work groups for developing the Management Actions Report
